

CREATION

1

Cashrift created by Zrins, powerful beings from beyond this galaxy. No explanation for why has ever been discovered (by the people of Cashrift).

PLANTS

1 – 2

First plants emerge, due to accelerated growth given them by the Zrins. Normal growth begins by 2.5.

PEOPLE

2 – 3

First Cashriftian man and woman emerge, due to accelerated growth given them by the Zrins.

ANIMALS

3 – 4

Animals emerge, by the same process as plants and people. Zrins apparently leave the planet alone, and have never been seen again.

CIVILIZATION

149

First major civilization emerges, calling itself “Cashriftia,” naming the planet “Cashrift.” Its meaning has been lost to time, along with the language it is derived from.

SPLIT

256

Cashrift splits into many smaller separate sovereign divisions, called trias. Small wars break out over border disputes.

RISE OF KRIFLITH

288

Two of the larger trias, Krinnacia and Finllith, band together and form the Kriflith Empire.

MASTER ARMY, CHURCH OF ZORG CREATED

317

Kriflith finishes creation of its Master Army, and conquers much of Cashriftia. Many are swayed by the “Prophet” Nistronia to join with Kriflith in the name of his own creation, the “Church of Zorg.”

EXPLORATION

354

Mass exploration of Cashrift begins, but it is ultimately ended by the Church of Zorg, which states that all must live in the “Motherland” alone, and not venture off into unknown, forbidden areas.

AGE OF UNZORG

401 – 469

Church of Zorg is destroyed from within, exploration booms, and the entire world is colonized.

END OF KRIFLITH

415

Emperor of Kriflith allows many to secede from his empire. Eventually Kriflith is completely disbanded, though no one is nighly affected.

ZARCHLIA

469

Nib Briftn I becomes king of Zarchlia, the largest tria in Cashrift. Zarchlia prospers for many years.

NIB BRIFTIN II BORN

473

Mother is still unknown.

AGE OF ZARCHKRIF

481 – 576

Those calling themselves the New Kriflith Army attack Zarchlia. Thousands are killed in the years long war. The NKA apparently looked to revive the old empire, but only succeeded in killing many.

ZARCHKRIF TRUCE

576

Age of Zarchkrif ends, along with its war. 127 people are left, and build the city of Praptif.

AGE OF REBIRTH

582 – 702

FOUR GREAT SWORDS FORGED

626

Nib Briftn III forges his Four Great Swords, named for each of the Four Great Cities (Cashriftia, Kriflith, Zarchlia, and Praptif). Some say they are imbued with magical powers.

PRAPTIF COMPLETED

578

Population grows fairly swiftly. Citizens insist on no government. Even with out it, life runs smoothly.

NIB BRIFTIN III BORN

582

Nib Briftn II, somehow still alive, fathers Nib Briftn III.

BRIFTIN III, SWORDSMITH

611

Nib Briftn III, master swordsmith, and his apprentice, Cravdue, go on a journey to seek out new ores. They find one that is especially durable, and make many swords of high quality from it.

NIB BRIFTIN IV BORN

626

PRAPTIF FLOURISHES

659

Praptif becomes a flourishing kingdom. Nib Briftn IV becomes king. Four Great Swords are lost, and no one knows where they ended up.

NIB BRIFTIN V BORN

668

Nib Briftn V is born, last of the Briftn line. Not much is known about his life.

PRAPTIF COLLAPSES

702

No large kingdom is ever seen on the face of Cashrift. All civilizations are small trias, never having populations of larger than a few hundred. Art and science flourish, however.

AGE OF INTELLIGENCE

702 – 776

THE SIXTH BRIFTIN

776

After many years of peace, one man calling himself “Nib Briftn VI” emerges, claiming to be Nib Briftn V’s son and stirs up his tria to war with the neighboring tria. Massive war breaks out over lies and deceit from “The Sixth Briftn.” It goes much farther than he anticipates, however, and destroys nearly the entire population of Cashrift.

LAST WAR ENDS

819

The Last War ends, with "The Sixth Briftn" dying at the hands of the last surviving soldiers.

FALL OF CASHRIFT

822

A new disease has sprung up during the war, making all Cashriftians sterile and unable to reproduce. The last Cashriftian to die is Nib Nisloroc, who writes the great histories of Cashrift in his book, "Cashrift - From Zrins to Briftins."
